

REPLACE *the* WASTE

FROM
SEPTEMBER 1, 2023

Plastic stemmed cotton buds will be banned.

Exemptions, where plastic stemmed cotton buds are required for medical, veterinary, and other scientific purposes will be developed.

Single-use plastic bowls and plates will be banned.

Many suitable alternatives are already available, and bans are already in place in Queensland, New South Wales and Western Australia.

Plastic pizza savers will be banned.

Plastic pizza savers are difficult to recycle in conventional recycling facilities, and when left inside a cardboard pizza box they impact on the recyclability or compostability of the pizza box.
